Editor's Note

Hi Everyone,

I was elated to see all the people at Memorial Day service. I hope you will continue to support veterans.

There are a few people I want to thank for their help. 1 - Bill Molinaro the photographer and my friend for taking the pictures on Memorial Day. 2 - Ruth Happ for sending in her pictures and last but not least the gals from Guys & Dolls for helping in the kitchen. Debi Z, Kathy H. Karen O. I hope I didn't forget anyone.

What's happening in July:

- 12th Hot Dog Dayze Dirty Dogs
- 13th Trip to Italy Mtg. On the road again
- 19th Beef Steak Dinner Where's the Beef?
- 26th Family Pool Day Swim baby Swim

Don't forget Progressive Raffle - You have to be in it to win it.

Please see the S/P for more info on things going on in July.

*Happy 4th and be safe
Diana Dillon*

P.S. I want to say "Thank You" to those people that gave me money towards the mailings. I will be collecting at the Nov./Dec. meetings for the mailings. Every little bit helps. Plus it is tax deductible.

Thank you

Swan

Silver Ridge Westerly Assisting Neighbors

SWAN: an elegant, quiet, and powerful bird: the perfect symbol for the volunteer program at Silver Ridge Park Westerly.

SWAN workers bridge the gap for our neighbors at Silver Ridge Park Westerly who need help getting to medical appointments. SWAN services are always free of charge.

Here's how it works:

1. **Ride request:** SRP Westerly neighbors needing transportation call our SWAN phone.
2. **Scheduling:** Phone volunteers schedule a driver and prepare the orders.
3. **The Final Step:** Drivers confirm the appointment with the passenger.

Drivers are insured by the Ocean County Board of Social Services through the RSVP.

Benefits of volunteering:

Helping others has been known to reduce stress, increase happiness and produce a sense of purpose. SWAN not only addresses a real need, but fosters a strong community bond.

The Need:

Join our volunteers by giving just an hour or two a month. If you want to know more about this heartwarming program, call the SWAN desk at 848-223-7588 and leave a message.

SWAN is sponsored by the Ocean County Board of Social Services under the Senior and Retired Volunteer Program (RSVP) and Americorp

Sunshine

With summer coming, we can tend to be preoccupied with our family activities, graduations, picnics, days at the beach, and vacations, that sometimes forget about our friends and neighbors. If you know of a neighbor who is celebrating a special birthday, anniversary, or any other milestone please let us know and we will send a congratulatory wish. As always, we will

continue extending our condolences to the families of our homeowners who have passed.

It is nearly impossible for us to know every homeowner that resides within our community, with that said, we depend on you to help your Sunshine Gal stay informed. Please send me a text, email, or call if you would like us to send a card to anyone, one of our homeowners.

Son says "Toy Story" The robot slaps the son. Son says "OK OK we were watching porn." Dad says. "WHAT? At your age I didn't know what porn was." The robot slaps the father. Mom laughs and says. THE CENTIPEDE

A single guy decided life would be more fun if he had a pet. So he went to the pet store and told that he wanted to buy an unusual pet. After some discussion, he finally bought a talking centipede. (100-legged bug), which came in a white box to use for his house. He took the box back home, found a good spot for the box, and decided he would start off by taking his pet to church with him. So he asked the Centipede in the box. "Would you like to go to church with me today? We will have a good time. But there was no answer from his new pet. This bothered him a bit, but waited a few minutes and asked him again, "How about going to church with me and receive blessings?" But again there was no answer from his new friend and pet. So he waited a few minutes more, thinking about the situation. The guy decided to invite the Centipede one more time. This time he put his face up against the Centipede's house and shouted, "Hey, in there! Would you like to go to church with me and learn about God?" This time, a little voice came out of the box "I heard you the first time! I'm putting my shoes on!"

It has come to my attention that a Homeowner was concerned that the jokes didn't say where they came from or that they may have been copyrighted.

Well, I called a few printers and I was told that jokes are not usually copyrighted and that I didn't need to say where they came from. But, in the future it would be a good idea to mention where I get them. Whether they come from Old Sign Post or the Internet. Just in case there is a problem!

Most jokes I received from friends and neighbors. And some from past S/P when I was Editor way back when, (I save all my Sign Post for old articles and jokes)

In the future I will note where they come from. Whether they come from the Sign Post or the Internet. I hope this will relieve the Homeowner of her concern.

July 'DIRT' from Silver Ridge Park - Westerly Garden Committee 2025

In your mailbox are colorful flyers from lawn-care companies now promising a new service of protection against mosquitos. Some brochures say “The only good mosquito is a dead mosquito”. Marketing efforts on these flyers do correctly state that their pesticides are regulated and approved for use by the Environmental Protection Agency (EPA). That does not mean they are without any negative environmental consequences. These misleading statements push a myth that mosquito sprays are safe for all but their intended targets. There is no way for companies to spray broad-spectrum insecticides in your yard without also killing other insects that the chemicals come in contact with including bees, Monarch butterflies, fireflies and other beneficial insects. Those non-target insects roost, nest and eat the vegetation where the application has been sprayed.

Most residential mosquito control companies use insecticides known as ‘pyrethrins’, which are chemicals naturally derived from chrysanthemum flowers that are toxic to all insects. More frequently applicators use cheaper, synthetic chemicals that mimic pyrethrins, called ‘pyrethroids’. Whether natural or synthetic, these broad-spectrum insecticides are highly toxic to a wide variety of insects, not just to mosquitoes.

Both spray formulas are long-lasting and may continue to harm insects that come in contact with the product days or even weeks later. Also, it can take one-million droplets of insecticide in the air just to reach one adult mosquito! All those extra drops will not only kill any non-target, beneficial insects, but it can also kill dragonflies and craneflies, insects that actually eat mosquitoes!

The most effective and safest ways to control mosquitoes in your yard is through reduction of their breeding areas. Mosquito larvae need to hatch & grow in stagnant water for 7-days to develop into flying adults. So try to regularly drain sources of standing water on your property that can be found accumulated in downspout splashblocks, saucers of potted plants or even a dog food bowl left outside for a week. If you are lucky enough to have an aquatic garden in your backyard with water-loving plants growing in it, make sure you add fish to eat the mosquito larvae.

Saving our local beneficial insects is important to do. Also, keep in mind that here in Silver Ridge Park - Westerly, we older adults are more vulnerable to the effects of aerial insecticide applications due to our slower metabolism which will affect how quickly pesticides are eliminated from our bodies. Lastly, some of us have medical conditons that will make us more sensitive to insecticides.

Tree Replenishment Pilot Program Form

Follow the steps below to submit your application to plant a tree in the Common Grounds area.

1- List your reason(s) you want to install a tree on Common Grounds.

2- Review the 'Approved Replenishment Trees' sheet and list your requested tree(s).

3- Attach a rough sketch of your property noting the proximity of the Common Ground area you are requesting to have a tree planted. Be aware to keep open all access areas for emergency services into the Common Grounds and of the necessity to avoid underground utilities while digging.

4- Check which method of installation you are planning to use to install your tree?

purchase and install the tree myself.

hire a contractor to purchase and install the tree.

(Contractor Name: _____)

make a donation to the Garden Committee to purchase and install the tree.

5- Homeowner Name: _____

Address: _____

Phone: _____ E-Mail _____

The **financial cost to you**, the homeowner, could range from \$200- \$500 to cover the price of the tree, soil amendments, mulch, tree stakes, wire-enclosure & support poles to protect against deer browse / antler rubbing.

The **time cost to you**, the homeowner, would be the requirements to water the tree and maintain the enclosure for 12-months after the installation. Once installed, your tree becomes the property of the SRP Westerly HOA.

Sign, date & return this form with your sketch to the Trustee mailbox in the Clubhouse. **Do not plant your tree until you have the final written approval from the HOA.** It is recommended you speak with any neighbors about the plan installation of your tree. The turn-around time to review and approve or deny your request could take up to 30 days from the date of your submission so your patience is appreciated.

Approved Replenishment Trees

The tree species listed below have been chosen for their ability to grow in our sandy, high acidic soils. They are a mix of native and non-native to the area species. No 'invasive' tree species are listed as they could cause environmental harm by spreading unchecked through our Pinelands environment.

With our Pine Barrens sandy soils, anytime when there is no snow on the ground is considered 'planting season'.

SILVER RIDGE PARK WESTERLY ARCHITECTURAL FORM

In keeping with Berkeley Township shed ordinance, homeowners are permitted, effective immediately, to install one (1) shed on their property, up to and including 64 square feet.
(8' x 8' x 8')

Modification of existing shed policy 11th in the architectural Rules and Regulations was voted for, approved and has changed to:

1. Sheds may not be placed anywhere other than the rear of the home.
2. All sheds must remain within the sidelines of the home.
3. Sheds may NOT be installed on common ground property.
4. Said shed shall be of any structure material the homeowner desires.
5. Sheds that are required to be fastened must be on a firm ground structure. DO NOT place any shed on a cement slab. Cement slabs add square feet to your taxable living space and will be taxed by Berkeley Township.
6. In accordance with Berkeley Township ordinance, sheds must be placed at least three feet from the back of the property line.
7. Although Berkeley Township requires only a 3 foot side setback, SRP Westerly requires all shed placement to remain within the sidelines of the home.
8. In accordance with Berkeley Township ordinance, electrical wiring of sheds is not permitted.
9. If a homeowner chooses to install a shed against their home, it may not block any windows or doors.
10. Homeowners MUST submit an architectural approval request form along with a drawing showing the location of the proposed shed to the SR Westerly Architectural Committee. *(Architectural forms are available in your monthly copy of the Sign Post).*
11. The homeowner must submit a zoning permit application, required fees and forms to the Berkeley Township Town Hall /Zoning Office. *(Zoning Permit Application forms can be obtained from the Berkeley Township website or the Zoning Office.)*
